WHAT WE DO

TARGETED TRAINING - Maximize your budget with customized courses full of hands-on labs.

- ✓ **Comprehensive AI Training:** We provide expert training on a variety of AI models and technologies, including transformer-based architectures, OpenAI models, and cutting-edge frameworks like Langchain, and Retrieval-Augmented Generation (RAG). We also support Python AI needs with training on Pandas, NumPy, TensorFlow, PyTorch, scikit-learn and more.
- ✓ **Agile Training:** Our Agile coaches and trainers deliver comprehensive training programs tailored to meet the unique needs of businesses. We support SAFe, Scrum, Kanban, Lean, LeSS, eXtreme Programming (XP) and more. We'll equip your teams with the skills to adapt, collaborate, and excel in dynamic environments.
- ✓ **Technical Training:** Let us customize your training to minimize the time your staff is offline. Stay ahead in the rapidly evolving tech industry with our cutting-edge technical training programs. We cover a wide array of topics, including software development, data science, cybersecurity, and more. Contact us to ensure your workforce remains competitive and proficient.

AGILE WAYS OF WORKING - Increase organization effectiveness and employee satisfaction.

- ✓ **Agile Transformation:** Embrace and harness the full power of Agile. Learn to emphasize collaboration, adaptability, and customer centricity. Reshape your culture, processes, and mindset. Respond quickly to market changes while improving quality.
- ✓ **Agile Coaching:** Our experienced coaches will guide your teams and organization through your Agile journey, offering guidance, support, and training to cultivate an Agile mindset, improve collaboration, and optimize workflows. Enable your team to deliver high-quality products and services while responding effectively to changing market demands.
- ✓ **Project to Product Transition:** We'll pilot your project to product transition from start to maturity. Empower your organization to streamline processes, redefine team structures, and become product focused. You'll see data driven results as we help you facilitate a seamless shift by offering strategic planning, training, and ongoing support.

TALENT DEVELOPMENT - Comprehensive solutions for midsize businesses and enterprises.

- ✓ **Talent Development Partner:** We'll collaborate with you to identify skill gaps, design tailored training programs, and nurture employee growth and expertise. We provide personalized learning solutions, coaching, and mentorship, to enhance your workforce capabilities, improve productivity, and maintain a competitive edge in the market.
- ✓ **Corporate Code Academy:** Whether you're looking to create an onboarding program, upskill current staff, or grow your most important asset, you'll want to see our proprietary, project-based learning approach.
- ✓ **Hire - Train - Deploy:** We believe in our training approach! Let us prove it. We'll hire, train, and deploy staff to you on a "right to hire" contract basis. You only hire the resources who prove themselves.
- ✓ **Courseware Development:** Want to train your own people internally? We can help by providing workbooks, slide decks, eLearning, video and more. Often, we can leverage our existing materials to help you reduce the total cost of ownership.
- ✓ **Staffing:** Finding the right talent is crucial. We specialize in recruiting and placing highly skilled professionals in your organization. We are technical experts, so our rigorous selection process ensures that you receive candidates who exceed your requirements.

certifications

Our coaches and trainers have a wide variety of certifications. If you're looking for one in particular, just ask!
